Benefits of Membership

- › Technical information and guidance on welding, joining, inspection and allied technologies through the quarterly WIM newsletter, a dedicated WIM web site and other social media e.g. Facebook
- › Access to technical information provided by TWI UK including :
 - TWI's technical library, a world renowned library of books, reports, journals, standards, conference proceedings and publications
 - TWI's e-brary, a digital collection of titles complementing the print library
 - Weldasearch - database consisting of abstracts of over 200,000 articles on welding, joining and allied technologies
 - MI-21 consumables - a database of over 37,000 records enabling you to trace consumables by current and past products and relate them to standards
 - Knowledge summaries - brief introduction to the most popular joining processes, technologies and materials
 - Technical enquiries online
 - Industry updates
 - Standards updates - what standards are and why they should be used
 - Job knowledge
- › Special discounts for attending conferences, seminars, training courses and technical talks which are organised regularly.
- › Free access to TWI's webinars, an on-line technical lecture series covering various aspects of welding, joining & related technologies.
- › Discount for membership of TWI, the leading international membership body for welding and joining professionals.
- › For Corporate Members - allocation of free advertising in WIM's website.
- › Receive TWI's quarterly magazine called "Connect+".
- › Guidance and advice on how to plan, record and receive recognition for professional and career development.
- › Professional status - a recognized mark of attainment for engineers, technicians and others involved in welding, joining and related activities.
- › Networking with companies and individuals in the field of welding, joining, inspection and other technologies.
- › A 'Certificate of Membership' for Corporate Members and 'Membership Card' for Individual Member to confirm status.
