

Organised by :

Value Adding Digital Welding Technologies

In collaboration with:

Date : 14 April 2020 (Tuesday) Time : 2.00pm - 5.00pm

Synopsis:

As a recognised innovator in global welding technology , KEMPPi will be showcasing a sample of their unique welding solutions which leverage the power of **digital wireless** aimed at improving welding quality , safety, control and productivity. Many of these solutions were developed to support the requirements of the ISO3834 standard.

Overview:

- **Weldeye Take control** - welding quality and documentation management system
- **ARC validation** – maintain reliability -quick , simple calibration of welding power source and wire feeder
- **RGT Reduced gap technology** – simple reduction in welding costs & increased control
- **Optima AC** – A touch of magic combining the benefits of both traditional sine and modified square waveforms in TIG welding
- **Weld assist** – ‘synergic TIG’ making TIG welding simpler – for different levels of TIG welding experience
- **Practical workshop demonstration**

Speakers

Emil Dela Cruz

Kemppi Australia Pty Ltd
- Regional Manager South East Asia
(based in KL Malaysia)
Experience in Welding industry : 17 years
Welding Qualification: 2nd class welder with Certificate on production Engineering

Kemppi Australia - June 2006 (Present)
* 2006-2010 AU/NZ technical support officer, technical services, service repair and maintenance, service training.
* 2010 – 2018 Regional Sales Manager New South Wales

- Management of dealer & distributor outlets
- Technical welding support for dealers and Distributors
- Welding equipment demonstration
- Specialised in welding robotics & automation

FREE FOR WIM MEMBERS

**Non-WIM members:
RM50.00 per person**
(including 6% SST)

Light refreshments will be provided

Waldemar Radomski

Kemppi Australia Pty Ltd
- Welding Engineer & solutions engineer
Australia and SEA
Experience in welding industry : 8years

Education & Qualification:
- Master Degree of Material Science and Welding Engineering
- International Welding Engineer Certificate (IWE)
- Diploma of Project Management (TAFE Australia Certificate)
- Engineers Australia Professional Skills L1 under 233999

David Green ,

Kemppi Australia Pty Ltd
– Managing Director Australia & SEA
Experience in welding industry : 8years

Education & Qualification:
-Level II cert. in welding methods
-Graduate Diploma in Corporate Governance & risk management
-International MBA
-BA(Hons) business management
-HNC Business & Finance

Background experience :
-Business & organization development
-strategy, finance & marketing

Who should participate?

Plant Managers, Production Managers, Maintenance Managers, QA/QC Managers, Welding Engineers, Welding Inspectors , Supervisors and all those involved in welding technology.

Benefits:

First hand knowledge and information from experts from a recognised international welding company on value adding on welding productivity by using their unique welding solutions to improve welding quality , safety, control and productivity.

Location :

TWI Technology (S.E.Asia) Sdn Bhd
No. 1 Jalan Utarid U5/13, Section U5, Mah Sing Integrated Industrial Park, Bandar Pinggiran Subang, 40150 Shah Alam, Selangor.

Registration :

Email : welding.institute@wim.org.my Contact no. : 03-7848 1018 Fax no. : 03-7848 1010

WIM is a non-profit membership organisation with a mission to provide a wide range of technical, networking and support services in the field of welding, joining and allied technologies.
