

Key Challenges of Welding

Technical Seminar

Resort World Kijal, Terengganu

14 February 2023

Welding is one of the most essential processes in any industry, whether it's the manufacturing of pressure equipment, or construction of large energy super-structures – however, the importance of welding quality assurance is often overlooked, resorting to potential issues e.g., fit-up or installation later in the project.

LRQA and the Welding Institute Malaysia (WIM) is bringing together joint expertise and experience to share key challenges in welding and ideas for risk management and mitigation, ensuring projects are on-budget, on-time, and within technical specifications.

Join us for a half-day of knowledge sharing and networking lunch with members of the industry!

Programme

8:30 am – Registration

9:00 am – Seminar Starts

- Introduction to LRQA
- Key Challenges in Welding
- Qualification of Welding Procedure/Personnel

10:30 am – Tea Break

- Risk Management by Calibration and Validation
- Intro to ISO3834 Welding Management System
- Case Study
- Q&A

12:30 pm – Lunch and Networking

Registration

Please contact Mr Vern Wong at vern.wong@lrqa.com or call +6012-399 4221 for more details and to book your spot now!

Spaces are limited. Programme may be subject to changes at our discretion.

About LRQA and WIM

By bringing together unrivalled expertise in certification, brand assurance, food safety, cybersecurity, inspection, and training, we've become a leading **global assurance provider**.

From independent auditing, inspection, certification, and training; to consultancy services; to real-time assurance technology and data-driven supply chain transformation, our innovative end-to-end solutions help our clients negotiate a rapidly changing risk landscape – making sure they're shaping their own future, rather than letting it shape them.

The Welding Institute of Malaysia (WIM) is a non-profit membership organization and society formed to raise awareness on the science and practice of welding, joining, cutting and related technologies and quality in welding workmanship. It is affiliated to TWI UK, the only Malaysian representative of IIW and a Full Member of AWF.
